October 28, 2022

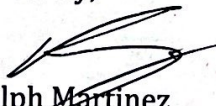

Good Afternoon PS 89 Families,

The Bronx East Command School Safety Division has notified us of the importance of informing families of the danger and consequences of gel guns (aka Orbeez Gun). They are dangerous and can cause serious physical injury and damage to property, especially if the pellets are frozen. **These guns are illegal to have in possession. Any student found with this gel gun or any other weapon will receive a juvenile report for possession of a weapon.**

Please check your child's backpack to ensure they are not bringing these gel guns as well as any other item such as stun guns, pepper spray, or any other weapon to school. Please see the pictures below for an example of the gel guns (Orbeez Guns). Thank you for your time and attention to this matter.

Sincerely,

  
Ralph Martinez  
Principal
